

# Roundtable Meetings 2018/2019

(For Association Leadership and Building Representatives)

Regional roundtables are designed to support those who support our locals in the field. Each meeting takes a look at statewide, regional, and local issues ranging from legislative changes to representation cases and everything in between that can be of mutual aid to those in attendance.

The latest support materials and information useful to our local associations is also released at the 'roundtable' meetings.

We hope to see all locals represented at our roundtables this year to support one another!

Attendance = Knowledge      Knowledge = Power      Power = Positive Change!

Date	Time	Location(s)	Agenda Sample
